

VETERANS VISITING VETERANS

With the help of the Bucks County Department of Veteran Affairs
I have started a program that will have a fellow Vet
visit a Veterans home as a Volunteer
and spend two or three hours a week helping a
mentally or physically disabled Veteran get thru a painful day.

It could be as simple as being a companion,
helping with small chores, taking them shopping or out to lunch
... or just have a conversation.

In many cases they are simply lonely and need a friend.
Give them an ear and their military experience lives on.

In some cases, they live alone or their wife or son/daughter
who functions as caregivers!

I have been caring for seniors for 7 years.
Many have varied stages of dementia,
but all will openly welcome you just for being there.

In most cases the Caregiver has the heavy burden ...
simply giving them a few hours of freedom works wonders.

This program is unique and very rewarding.
I would like to share more if you have an interest.
You will experience a world you never knew existed.

If you have any interest of know a Veteran that needs a friend
... I ask that you call me. I do have Veterans in need.

Thank you,
Gabriel Mascio
